

The Hab boasts of a signature window installation at the entrance, designed by the internationally acclaimed Indian designer Manish Arora

**According to Manish Arora,
The Hab window installation signifies
how beautiful life is.**

There are nature inspired design elements from Manish Arora's previous collections juxtaposed on a curtain to create a fantasy world. Continuity of life is depicted through a set of footprints running throughout the curtain and onto the ceiling. Indian goddesses shown on the curtain depict the beauty in our culture and religion, and the festivity connected with it. There are motifs on the ceiling that are inspired by our Indian environment.

The entire display is an amalgamation of the infinite and beautiful world of embroideries that can be created using Usha sewing machines, also depicted through an embroidery laden sewing machine structure central to the installation. All in all a colourful world by Manish Arora.
